

Red Alliance

Grape variety : This wine is made from different traditional grape-varieties: Syrah 25%, Merlot 10%, Cabernet Sauvignon 50%, black Grenache & Cinsault 15%. Soil : This grape is grown on chalky hillsides. Gravelly soil and chalky-clay earth.

Yield : Average yield of 60 hi/ha

Vinification : Mechanical harvest. The grapes are destemmed before being put in vat. (only the grape-berries are put in vat for fermentations). The vinification is separately carried out at a strictly controlled temperature in order to preserve the aroma and balance of the wine.

Serving Instructions: A delicious accompaniment for all different dishes. You can serve it fresh
